

Programmable timer ANY-180

■ **Purpose:** used on staircase , carbarn , door ,courtyard , Hall ,alleyway and aisle etc.

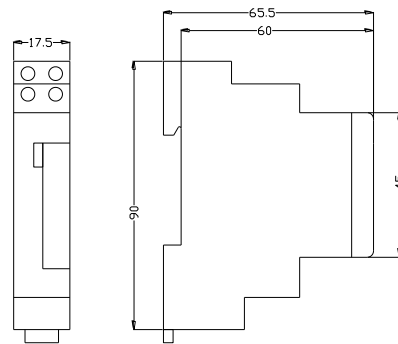

■ **Feature:**

- 1) little volume, minimal setting tolerance (each unit is 15 min.)
- 2) have auto switch and independent on/off button
- 3) have output indication (up ON, down OFF)
- 4) have transparent cover for avoiding error

■ **Layout**

■ **Fix dimension(mm)**

■ **Specification**

- rating voltage: 220VAC50Hz
 - voltage range: rating voltage \pm 10%
- time tolerance: $\cong \pm 1$ sec/day(20°C)
- remain time by switch off: charge three days, keeping work 100 hours
- working power: max2.5VA
- contact material: AgSnO₂
- contact capacity: resistance load 16A, inductive load 4A
- setting temperature: -10°C~ +50°C
- weightiness: 120g
